AREA DX CONVENTIONS ANNOUNCED

For those of us that are looking ahead to future radio related events, three DX conventions have been announced that are within driving distance of central Indiana. The first of these is the W8DXCC event, presented by the Southwest Ohio DX Association, scheduled for August 29, 2020. This event is being held during the Milford Hamfest, in Owensville, OH. For more details on this event, point your browser to <https://www.swodxa.org/w8dxcc/>.

The second of these events is the W9DXCC event. This one is scheduled for September 11 and 12, 2020. A concurrent Contest University and DX University program is scheduled for the 11th, with the W9DXCC presentations and banquet scheduled for the

12th. This event is scheduled to be held in Naperville, IL. More information on the W9DXCC event can be found at <https://www.w9dxcc.com/index.html>.

The third of these events is a little more of a drive, but worth it if you like Tennessee. This is the W4DXCC event, scheduled for September 25 and 26, in Pigeon Forge, Tennessee. There is a Ham Radio Bootcamp event scheduled for the 25th, and the actual DX convention is the 26th. More information on this event can be found at <http://w4dxcc.com/w4dxcc-convention.html>.

LOCAL VE TESTING UPDATES

With the cancellation of the Indianapolis Hamfest, Indianapolis Radio Club VE testing coordinator, Jim Rinehart, K9RU, has added a testing session for July 11. As of the writing of this newsletter, Jim is still planning on having an in person testing session on June 13, contingent on State of Indiana and City of Indianapolis Stay at Home order status, as well as the availability and restrictions in place at the Salvation Army testing site. Due to the large number of people that have expressed interest in getting tested, to follow social distancing guidelines, Jim is planning on scheduling two 1 ½ hour test sessions, and both VEs and applicants will be required to wear masks.

HENDRICKS COUNTY COUNCIL APPROVES FUNDS FOR REPEATER SYSTEM

Over the last year, the HCARES and the HERO teams worked in putting together data on what would be needed to build an emergency/regular repeater system that would cover all of Hendricks County. HCARES took this data and approached the Hendricks County Council in a bid to request funds. In a historical move the Hendricks County Council approved this request and has provided the funds! This is believed to be a first for a county within Indiana, especially Hendricks County. The HCARES and the HERO teams will now work on acquiring the repeaters, antennas, cabling and associated hardware and putting this system together. This system will be solely managed and maintained by HCARES. HCARES thanks the County Council for recognizing the service that Hams provide in the form of emergency communications to the county. A special thanks goes

out to Lise' Crouch, the Hendricks County EMA Coordinator, for working with HCARES and HERO to put the package together.

UPCOMING INDIANAPOLIS AREA TESTING SESSIONS (check with sponsor before planning to attend)

Franklin IN 46131-9733
